

## Asia Pacific to reach 630 million pay TV subs

Asia Pacific will have 630 million pay TV subscribers by 2026, up from 609 million at end-2020. India will add 21 million. China and India together will have nearly 500 million subs. The number of TV households will grow by 54 million to 979 million.

Source: Digital TV Research Ltd

Simon Murray, Principal Analyst at Digital TV Research, said: “Six countries will lose pay TV subscribers between 2020 and 2026. Most will be developed countries, but China is also included. China will fall by 10 million subscribers. This is cord-cutting, but represents only a 3% decline to 318 million.”

IPTV subscribers will overtake cable in 2024. IPTV will add 51 million subscribers between 2020 and 2026 to take its total to 283 million. Digital and analog cable subscriptions will fall by 19 million and 13 million respectively. Pay satellite TV will increase by only 2 million subscribers to take the total to 83 million.

# Asia Pacific Pay TV Forecasts

## Table of Contents

Published in March 2021, this 202-page PDF, PowerPoint and excel report comes in three parts:

- Insight: Detailed country-by-country analysis in a 56-page PDF document.
- Outlook: Forecasts for 22 countries in a 46-page PowerPoint document full of charts, graphs and bullet points;
- Excel workbook covering each year from 2010 to 2026 for 22 countries by household penetration, by pay TV subscribers, by pay TV revenues and by major operator. As well as summary tables by country and by platform;

Taiwan	4	Taiwan Broadband; TWM; CNS; CHT
Thailand	3	Truevisions; TOT; AIS
Vietnam	8	SCTV; VTVCab; HTV-CMS; VNPT; Viettel; FPT; K+; Viva TV

## SAMPLE: Qatar pay TV insight

- **Digital TV penetration** reached 100% in 2015. About two-thirds of the 510,000 TV households receive either free-to-air or pay satellite TV signals.

### Main assumptions behind the forecasts

- About 45% of homes receive FTA satellite TV signals and 21% pay to receive satellite TV signals.
- IPTV penetration is also high – at 30.9% by end-2020.
- Few homes rely on DTT signals.

*Source: Digital TV Research*

**digital TV research**

- **Pay TV penetration** will remain at 52% of TV households. Pay TV revenues will reach \$68 million in 2026.

Main operators by subscribers (000)				
Operator	Pay TV subs	Fixed bb subs	Mobile subs	SVOD platforms
beIN	52	-	-	beIN Connect
Ooredoo	158	-	2,970	StarzPlay; OSN; beIN
OSN	57	-	-	OSN
Vodafone	-	5	1,678	-

*Source: Digital TV Research*

- The ongoing dispute between Saudi Arabia and Qatar hit beIN's subscriber numbers across the region. beIN is reliant on subscriptions outside Qatar to thrive. Most governments have followed the Saudi ban on beIN – although not all of them have enforced the ban that effectively. The ban started in mid-2017
- With 52,000 subs in Qatar by end-2020, **beIN** provides up to 67 channels. We forecast that beIN will have 44,000 subscribers by 2026 - falling as fewer sports rights are expected.
- We estimate 57,000 **OSN** subscribers by end-2020, with 63,000 by 2026. After a cost cutting drive and in preparation for an IPO in 2021, OSN is placing more emphasis on its SVOD platform. OSN has exclusive deals with seven Hollywood studios, but wants to increase Arabic content to at least a quarter of the total.
- **The Ooredoo TV IPTV platform** (up to 190 channels, including bundles from beIN, MBC and OSN) is offered as part of a triple-play package (up to 1Gbps). We estimated 158,000 subscribers at end-2020; climbing to 165,000 by 2026. In October 2015, Ooredoo has distribution deals with SVOD platforms OSN and StarzPlay (QAR30/month, 8,000 hours).

- Ooredoo is investing QAR1 billion on an **extensive fiber network** (up to 100Mbps). Ooredoo is responsible for constructing the government-owned National Broadband Network (QNBN). Ooredoo had 2.97 million mobile subscribers by September 2020.
- **Vodafone** won the license for the second fixed line service in April 2010. Vodafone sold its stake to a local consortium in late 2018. Vodafone started its Giga TV OTT platform in late 2019. Vodafone had 5,000 fixed broadband and 1.68 million mobile subscribers by September 2020.
- State-owned **Qatar Media Corporation**, owner of Al Jazeera and FTA channel Qatar TV, had upgraded the terrestrial network to DVB-T2 by December 2013. Full conversion took place in 2014.
