

OTT revenues to reach \$210 billion

Global revenues from OTT TV episode and movies will reach \$210 billion in 2026; up from \$106 billion on 2020. About \$23 billion will be added in 2021 alone.

From the 138 countries covered, the top five will command two-thirds of global revenues by 2026. This proportion is down from 71% in 2020; revealing that the rest of the world will grow at a faster rate.

Simon Murray, Principal Analyst at Digital TV Research, said: “The US will remain the dominant territory by some distance. Its share of global revenues will still be 42% by 2026. This market is far from mature. US revenues will climb by \$42 billion between 2020 and 2026 to reach \$88 billion.”

From the extra \$104 billion revenues between 2020 and 2026, China will add \$8.4 billion to reach to \$24 billion. Japan will add \$4.5 billion to double to \$9.2 billion. India will increase by \$4.7 billion to more than triple to \$6.7 billion.

SVOD revenues will climb by \$59 billion between 2020 and 2026 to \$126 billion. SVOD’s share of the total will dip slightly from 62% in 2020 to 60% in 2026. AVOD revenues will increase by \$39 billion between 2020 and 2026 to \$66 billion - 32% of total OTT revenues by 2026, up from 26% in 2020.
